Form Process

To do the invetory sheet the best way, as not to forget things. Sitting at the computer is a way of doing it, but it is easy to forget things in some of the rooms. The best way is print up the two sheets. Go into each room by room, as the inventory sheet gos down the left side, then the right side. If there is not enough space on the set form, thats were you can write in above custom list. In doing this, you scan the two sheets & send them back. Were we & you have a vary accurate inventory list & property discription of pick up & delivery. If you do not know where your next place of residence exactley is, Put G.A. (Good Accesses) & this is what will be priced at the delivery end.

Yours sincerely Tim's Removal Tim Noonan.
